(651) 738-1880

Patients come to Montgomery Dental Care from the Woodbury community and beyond for award-winning cosmetic-oriented family dental care. The talented dental team, led by Dr. Marc Montgomery, seeks to help improve every patient's self-image, comfort and overall health.

"Focusing on what each patient needs to feel confident about themselves is behind everything we do," Dr. Montgomery says. "My team and I give every patient a beautiful smile, and the work we do appears completely natural and undetectable."

Montgomery Dental Care provides cosmetic dentistry services including complex restorative dentistry, adult and child orthodontics, dental implants, children's dentistry, and family preventative dentistry. Dr. Montgomery and his team have received several awards from the American Academy of

Cosmetic Dentistry's (AACD) annual Smile Gallery Competition, and Mpls. St. Paul Magazine has named Montgomery Dental Care "Top Dentist" three times in a row.

The local and international recognition is a reflection of Dr. Montgomery's extensive education, and his team's dedication to excellence.

"I am constantly advancing my own skills so that I can best meet the unique needs of my patients," Dr. Montgomery says. "I take four to five times the amount of continuing education required by the Minnesota Board of Dentistry, and I'm pursuing accreditation by the AACD, which only about 250 dentists around the world have received in the last 15 years."

Montgomery Dental Care works closely with Valley Dental Arts, one of the top five cosmetic-oriented dental laboratories in the country. If needed, the team can coordinate patient care with other top specialists the same day, providing seamless service and quick results.

Montgomery Dental Care is located at 8380 City Centre Drive, near the intersection of Valley Creek Road and Radio Drive. Their web site - www.montgomerydentalcare.com - features beautiful examples of what they can do for your smile. You can call the office at (651) 738-1880 to learn more.
